SUMMARY

Information Systems student at Telkom University (Class of 2028) with hands-on experience building full-stack web and mobile applications. Completed four personal projects spanning a freelance marketplace, deployment platform, AI-powered finance tracker, and project management system — using technologies including Next.js, TypeScript, PostgreSQL, Docker, and Kotlin. Actively seeking a software engineering internship where I can apply full-stack skills in a real-world product environment.

SKILLS

Frontend: TypeScript, JavaScript, Next.js, React, Vue.js, Tailwind CSS, HTML, CSS, Figma

Backend: REST API Development, Node.js, Authentication (NextAuth, JWT), Laravel

Database & DevOps: PostgreSQL, MySQL, Prisma, Docker, Supabase, Git, GitHub

Mobile: Kotlin, Android Studio

PERSONAL PROJECTS

RRS Website — Freelance Marketplace Platform

2025

- Built a full-stack freelance marketplace using Next.js, TypeScript, PostgreSQL, Prisma, NextAuth, Midtrans, and Supabase Storage.
- Implemented 5 end-to-end features including user authentication, service ordering, payment gateway integration, file delivery, and an admin dashboard.

DeployForge — Web-Based Deployment Platform

2025

- Engineered a Vercel-inspired deployment platform enabling automated web project publishing with real-time build status.
- Implemented CI/CD-style build workflows using Next.js, TypeScript, PostgreSQL, Docker, and GitHub Webhooks for automated deployment triggers.

FinTrack — Android AI Personal Finance Tracker

2025

- Built an Android app that converts Indonesian natural language transaction inputs into structured financial records using AI, covering 5–6 core screens.
- Developed with Kotlin, Android Studio, OpenRouter API, and a custom AI parser; prototyped the full UI in Figma before implementation.

ProjectNest — Project Management Platform

2025

- Developed a multi-role collaboration platform supporting 3 user roles and 5–6 core modules including task assignment, deadline tracking, and progress monitoring.
- Built with Laravel, Vue.js, MySQL, and REST API; implemented JWT authentication and role-based access control for structured team workflows.

EDUCATION

Telkom University

Aug 2024 – Expected Aug 2028

Bachelor's Degree in Information Systems

Relevant coursework: Web Development, Database Management, Programming Fundamentals, Software Engineering

ADDITIONAL INFORMATION

Languages: Indonesian, Conversational English
